INDUSTRY ADVICE

FARE ADJUSTMENT FOR PNG DOMESTIC SECTORS

Dear Industry Partners,

This notice serves to inform you about an upcoming adjustment to airfares on all PNG domestic sectors which will come into effect on the 16th of July.

Over the past 12 months, the airline has experienced a substantial rise in fuel costs. Additionally, the expenses for aircraft leases, spare parts, and services sourced from abroad have surged due to global supply chain inflationary pressures and the appreciating value of foreign currencies against the Kina.

Ticketing Information:

1. There will be a fare increase from **T to J class**.
2. Fares booked in **K class or lower** will see no increase or a decrease in airfare.
3. Any ticket issued at the old fare for travel on/after the 16th of July will be honoured as issued.
4. Any ticket issued at the old fare that requires a reissue/exchange on/after the 16th of July will be assessed against the new fare amount. Additional collection of fare difference applies where required.

Should you have any questions, please do not hesitate to contact our Pricing Team.

Thank you for your cooperation.

Sincerely
